Sources of chronic pain are often illusive, complex, and require treatment from a fellowship trained pain specialist.

**COMMON DIAGNOSTIC PROCEDURES WE TREAT**

- Neck and back pain from disc herniations
- Arm and leg pain from radioculopathies
- Neuropathies
- Shoulder, knee and hip pain
- unusual syndromes such as Reflex Sympathetic Dystrophy, pelvic pain, headaches and TMJ.

**Ronald DeMeo, M.D.**

Fellowship trained interventional pain management physician. Board Certified by the American Board of Anesthesia and Board Certified Subspecialty Certification in Pain Medicine
